

## CONTENTS

E.Y. Simanovskaya, M.Ph. Bolotova, Y.I. Nyashin, M.Y. Nyashin, A.G. Masich (Perm, Russia). Biomechanical and histomechanical studies of the masticatory apparatus development.....	9-16
Y.S. Levik, V.Y. Shlykov (Moscow, Russia). The study of the tonus of the axial muscles in humans .....	17-23
H. Yoshida, S. Tsutsumi (Kyoto, Japan). Experimental and Numerical Analyses of Whiplash Motions in Low-Speed Rear-End Collisions .....	24-32
M.A. Osipenko, Y.I. Nyashin, R.N. Rudakov (Perm, Russia). The sufficient condition for the pointwise contact in the two-leaf curved elastic element of the foot prosthesis under bending... ..	33-41
K.Ch. Wierzcholski (Szczecin, Poland). The torsion theory for the human bone.....	42-56
J. Schneider, M. Geiger, F.G. Sander (Ulm, Germany). Effects of bone remodelling during tooth movement .....	57-73
V.I. Shevtsov, T.I. Menshchikova, V.A. Shchurov (Kurgan, Russia). Theoretical premises and practical results of lower limb length increase in patients with achondropl.....	74-79
K.K. Stelmakh, L.I. Myakotina (Ekaterinburg, Russia). Comparative biomechanical assessment of the functional outcomes of treatment in patients with pelvic bone fractures .....	80-85
G.V. Kuznetsov, A.A. Yashin (Tula, Russia). Hemodynamics of the human cardiovascular system in turbulent blood flow .....	86-92
D.A. Chernous (Gomel, Belarus). Analysis of compliance of biomedical sheeting based on porous materials. part 1 .....	93-97
