

CONTENTS

<i>Bagayev S.N., Zakharov V.N., Orlov V.A., Panov S.V., Ratushnyak A.S., Zapara T.A.</i> (Novosibirsk, Russia). Transcapillary exchange regulation by pulse blood pressure	7
<i>Vikhareva E.V.</i> (Perm, Russia). A scientific and methodological approach to pharmaceutical waste removal based on biotechnologies and mathematical modelling.....	15
<i>Yermochenko S.A., Mikhasev G.I., Petrova L.G.</i> (Vitebsk, Belarus). Calculation of the strain-stress state of the middle ear under its total reconstruction taking into account the influence of the tympanic membrane remnants	23
<i>Kirykhin V.Y., Gilyazeva R.F.</i> (Perm, Russia). Biomechanical principles of dentition splintage	36
<i>Anfinogenov S.B., Kurek M.F., Shilko S.V., Chernous D.A.</i> (Gomel, Belarus). Mechanical and frictional properties of bioelastomers. Part 1: Description of human skin relaxation under tension	42
<i>Grygier D., Kuropka P., Dudziński W.</i> (Wroclaw, Poland). Microscopic and histological analysis of the molecular response of a coronary vessel after stent implantation	49
<i>Mishanov A.Yu., Kruchinin P.A.</i> (Moscow, Russia). Estimation measures in problem of data recovery of human movement videoanalysis by support normal reaction measurements	54
<i>Aptukov V.N., Osorgina L.Yu.</i> (Perm, Russia). Denermination of potential parameters for nonlinear compressible material of the human carotid at various stages of the atherosclerosis	69
<i>Vovnenko N.V., Zimin B.A., Sud'enkov Y.V.</i> (St. Petersburg, Russia). Thermo-acoustic and cavitation processes influence on the mechanisms of the tissue disruption by means of the laser impulses with regular structure	77
<i>Anciferov V.N., Rogozhnikov G.I., Votinov G.N., Astashina N.B.</i> (Perm, Russia). The rational design of the magnet fixative in a removable dentofacial prosthesis	83
<i>Boushmanov V.A., Solovtsova L.A.</i> (Blagoveshchensk, Russia). Investigation of the Ilizarov's external fixator rigidity	91
<i>Antonets V.A., Anishkina N.M.</i> (Nizhni Novgorod, Russia). IX All-Russian Conference on Biomechanics	96
