

CONTENTS

Differential Equations, Dynamical Systems and Optimal Control

D.N. Barotov (Financial University, Moscow, Russia),

R.N. Barotov (Khujand State University, Khujand, Tajikistan)

On the expressibility of the functions of the system $x'(t) = A \cdot x(t)$,
the eigenvalues of the matrix of which are non-multiple in the form
of linear combinations of derivatives of one function included in this system..... 8

Mathematical Modeling and Computational Mathematics

A.A. Kamenskih, A.S. Krysin, A.P. Pankova (PNRPU, Perm, Russia)

The effect analysis of the finite element approximation order on the protective
polymer layer contact deformation 17

A.N. Tyrsin (UrFU, SEC RR LSM UB RAS, Yekaterinburg, Russia)

Hasan Ahmed Mohammed Hasan (UrFU, Yekaterinburg, Russia)

Modeling dependence of normalized difference vegetation index on atmospheric
and water indicators in Kirkuk 33

System Analysis, Control and Data Processing

A.S. Tyurin, P.V. Saraev (LSTU, Lipetsk, Russia)

Construction of quantile regression using natural gradient descent..... 43

A.V. Vozhakov (PNRPU, Perm, IBS Soft, Moscow, Russia),

V.Yu. Stolbov (PNRPU, Perm, Russia)

The concept of intelligent control system of small-scale production..... 53

Automation and Control of Industrial Processes

I.Ya. Dyatlov (PNRPU, Perm, Russia)

Decision support system for power cable insulation vulcanization
production line management 61

Organizational Behavior Control in Social and Economic Systems

D.V. Gilev (UrFU, Yekaterinburg, Russia),

A.V. Holloy, O.V. Loginovskiy (SUSU, Chelyabinsk, Russia)

Criterion of solvability of the discriminant analysis problem underlying
the medical organization management model..... 72

D.L. Gorbunov (PNRPU, Perm, Russia)

Optimal labor market management under constraints
in the form of a finite-dimensional system of nonlinear differential
equations integrated by quadratures 83

Mathematical Methods and Tools in Economics

I.P. Bolodurina (OSU, Orenburg, Russia),

E.A. Speshilov (OSU, OB IE UB RAS, Orenburg, Russia)

Mathematical and instrumental means of providing an intelligent
decision support system for cargo traffic management93

M.L. Nikitin (Higher School of Economics, Saint-Petersburg, Russia,

Catholic University of the Sacred Heart, Milan, Italy)

Diagnosing stock market bubbles with advanced ADF tests108
