

CONTENTS

<i>Tyurin S.F., Sovetov S.I.</i>	
FPGA LUT implementing a logic function and decoding a set of variables simultaneously	5
<i>Mitrofanov S.V., Petrov V.V.</i>	
Development of elements of the automated design system of solar power plants	32
<i>Aleshkov A.A., Tsvetkov G.A.</i>	
Method of detection and recognition biological objects by its own electromagnetic emissions.....	50
<i>Nikulin V.S., Storozhev S.A.</i>	
Virtual combustion chamber temperature measurement based on fuzzy logic	71
<i>Bykovskaya L.V., Shtramel A.V.</i>	
Research of supports of VL 110 KV made from different materials	85
<i>Akhmarova Z.A., Zaitov A.I., Tur A.I.</i>	
Threat assessment model for smart home systems	105
<i>Tashkinov A.G.</i>	
Development of Agile and Lean methodology in an aircraft engine construction enterprise.....	122
<i>Kruglov S.P., Ivanchenko S.A.</i>	
Solution of inverse kinematics problem for car robotics wheelchair loader with speed extension optimization.....	151
<i>AL-Khafaji Israa M. Abdalameer, Wisam Ch. Alisawi, Djuraev K.A., Panov A.V.</i>	
Using evolutionary algorithms to improve the movement of ground robots	173
