

CONTENTS

<i>Popova M.V., Litvinov A.V., Kozlov S.N.</i>	
Information structure of control and provision of ecological safety in firing utilization of large-scale SRM charges at an open test bench	6
<i>Ershova A.A., Oznobishin A.B., Eremenko P.P.</i>	
Analysis of stress-strain state of „case – insulation – grain“ system.....	21
<i>Tusnin A.V., Shalamov S.A., Avgustinovich V.G.</i>	
The procedure of meshing model construction by the example of the gas-turbine engine combustion chamber	31
<i>Ermolaev A.S., Ivanov A.M., Vasilenko S.A.</i>	
Laser technology and processes when manufacturing and repair of details of the gas-turbine engine	49
<i>Baryshev V.I., Laiko K.K., Anischenko P.V.</i>	
Strength criteria of working fluids	64
<i>Lerner D.L.</i>	
Nozzle-gate device characteristics at the contraflow	83
<i>Chernov F.N., Malinin V.I.</i>	
Extraction of the nanodisperse oxide from suspension of combustion products of the metalgas mixture	101
<i>Obrosof A.A., Zemerev E.S., Malinin V.I.</i>	
Filtration and outflow of gaspowder mixture from spray injector of a plant for aluminium nanooxide synthesis	115
<i>Fedorovtsev P.I., Zemerev E.S., Malinin V.I., Shatrov A.V.</i>	
Development of the device for selection of disperse combustion products of a plant for aluminium nanooxide synthesis	125
<i>Israfilova E.Yu., Zinovev V.M., Krasilnikov F.S.</i>	
Instrumentation of rubber surface quality estimation after ultraviolet exposure	142
<i>Pospelov A.V., Zinovjev V.M., Krasilnikov F.S.</i>	
The study of reokinetics relationships of the bonding polyurethane compound	149
<i>Gladkova O.A., Fedoseev A.M., Zinovev V.M.</i>	
Application of the aprotonic catalyst while fabricating γ -polyoxymethylene in toluene medium	156
