

CONTENTS

<i>M.A. Stepanov, K.R. Dzhabrailova, G.I. Rybak, Mikh.A. Stepanov</i>	
The influence of single-layer and double-layer bases vertical soil pressing on the bearing capacity of piles	5
<i>M.N. Shutova, S.I. Evtushenko, D.A. Kalafatov</i>	
Analysis of the efficiency of the application of two-layer foundation structures of the power line portal through a numerical experiment.....	17
<i>D.A. Semenov, V.I. Kleveko</i>	
The planning of the model experiments to investigate the operation of bases reinforced with geosynthetic shells	29
<i>V.V. Antipov, V.G. Ofrikhter</i>	
Express assessment of soil strata and of soil unit weight by wave analysis	38
<i>T.P. Kasharina, D.V. Kasharin</i>	
Use of shell structures in extreme zones of Russia	49
<i>A.V. Boyarintsev</i>	
Representational analysis of the experience of building foundations on frozen soils	57
<i>A.I. Polishchuk, A.S. Mezhaikov</i>	
Assessing the effect of an inclined dividing line from piles between the foundations of neighboring buildings on their settlements	69
<i>T.N. Romanova</i>	
Current status of natural gasification	80
<i>T.N. Beloglazova, E.S. Dubrovskaya</i>	
Implementation of technical projects in the engineering infrastructure of the city	91
<i>A.P. Svintsov, S.L. Shambina, R.S. Fediuk</i>	
Effect of oily liquids on deformation properties of concrete	100
<i>V.I. Loganina, Y.B. Mazhitov</i>	
Durability of coatings based on sol silicate paint	113
<i>D.A. Skorobogatchenko, G.D. Zashorina</i>	
Feasibility study for the construction of roads with low traffic intensity on the basis of over compacted soil.....	121
<i>G.I. Zubareva, I.V. Sorgutov</i>	
Unique dome house	134
