

## CONTENT

---

<i>D.O. Panov, L.V. Spivak</i> Study of the transformation of supercooled austenite of steel using high-resolution dilatometry .....	5
<i>E.E. Abashkin, S.G. Zhilin, ON Komarov</i> The mechanical properties of the material deposited on a plate of steel with high carbon equivalent.....	15
<i>S.A. Oglezneva, M.N. Kachenyuk, A.A. Smetkin, V.B. Kulemetieva</i> Effect of spark plasma sintering temperature on “Inconel 625” alloy structure.....	25
<i>Y.A. Kochetkova, V.S. Tsepelev, V.V. Vyukhin, V.V. Konashkov, A.M. Povodator</i> Development of recommendations to improve the melting of the melchior alloy mark MN19....	33
<i>E.M. Fedoseeva, T.V. Olshanskaya, P.V. Prokhorov</i> Metallographic investigations of welded Joints of aluminium alloy of Al–Mg–Li system, subjected to thermal vacuum treatment .....	40
<i>M.A. Melchakov, A.I. Skvortsov</i> Damping capacity, coercive force and structure of Fe–Cr–Al alloys depending on the temperature of thermomagnetic treatment.....	54
<i>D.B. Podashev</i> The quality of edges when finishing parts onrobotic complex .....	61
<i>E.V. Matveev, I.I. Bezukladnikov, D.N. Trushnikov, V.S. Bogatyrev, A.A. Oskolkov</i> Ratio of polymer temperature at the end of FFF/FDM 3D-printer nozzle to length of active (hot) part for various linear print speeds definition .....	70
<i>V.F. Makarov, N.A. Vorozhtsova, M.V. Pesin</i> Processing gears with prefabricated grinding and polishing wheels .....	79
<i>V.A. Spirin, V.F. Makarov, O.A. Khalturin</i> Ensuring the effectiveness of abrasive finishing of screw complex-profile shafts .....	88
<i>I.S. Bezdenezhnykh, E.V. Matygullina, A.A. Shumkov</i> The choice of unit cell for modeling the structure of the ceramic foam filter.....	95
